

Biodesix Named a Top 100 Healthcare Technology Company of 2022

August 9, 2022

BOULDER, Colo.--(BUSINESS WIRE)--Aug. 9, 2022-- [Biodesix, Inc.](#) (Nasdaq: BDSX), a leading data-driven diagnostic solutions company with a focus in lung disease, today announced it has been recognized in the [Healthcare Technology Report's Top 100 Healthcare Technology Companies](#) of 2022. The company develops and commercializes blood-based diagnostic tests designed to address important unmet needs in healthcare, by combining multi-omics through the power of artificial intelligence. Biodesix offers five non-invasive, Medicare-covered tests for lung nodule assessment and treatment guidance for patients with lung cancer. Biodesix also leverages the proprietary and advanced Diagnostic Cortex® AI (Artificial Intelligence) platform, to collaborate with many of the world's leading biotechnology and pharmaceutical companies and academic research groups to solve complex diagnostic challenges.

The top 100 companies this year represent a range of specialties, from genomics to pharmaceuticals, lab testing, therapeutics, data analysis, and much more. What they have in common is the impact they are having on patients' lives, whether through direct treatment or by providing advanced, game-changing products and services to treatment providers. They are driving the industry forward and creating an environment in which better care for all is possible.

"I believe this recognition speaks volumes about the Biodesix team, culture, mission, and vision, which revolves around our collective commitment and daily contributions to positively impact patients' lives by uniting biopharma, physicians, and patients to transform the standard of care and improve outcomes with innovative, personalized diagnostics," said Scott Hutton, CEO, Biodesix. "The Biodesix team is honored to be recognized and included in the Healthcare Technology Report's esteemed list of healthcare innovators and would like to congratulate the other companies and teams recognized."

About Biodesix

Biodesix is a leading data-driven diagnostic solutions company with a focus in lung disease. The Company develops diagnostic tests addressing important clinical questions by combining multi-omics through the power of artificial intelligence. Biodesix is the first company to offer eight non-invasive tests for patients with lung diseases. The blood based Nodify Lung® nodule risk assessment testing strategy, consisting of the Nodify XL2® and the Nodify CDT® tests, evaluates the risk of malignancy in incidental pulmonary nodules, enabling physicians to better triage patients to the most appropriate course of action. The blood based IQLung™ strategy for lung cancer patients integrates the GeneStrat® ddPCR™ test, the GeneStrat NGS™ test and the VeriStrat® test to support treatment decisions across all stages of lung cancer with results in an unprecedented 36-72 hours, expediting time to treatment. Biodesix also leverages the proprietary and advanced Diagnostic Cortex® AI (Artificial Intelligence) platform, to collaborate with many of the world's leading biotechnology and pharmaceutical companies to solve complex diagnostic challenges in lung disease. Biodesix launched the SARS-CoV-2 ddPCR™ test, the Platelia SARS-CoV-2 Total Ab, and the cPass™ SARS-CoV-2 Neutralization Antibody test (cPass™ Neutralization Test KitGenScript, Inc.) in response to the global pandemic and virus that impacts the lung and causes COVID-19. Note Regarding Forward-Looking Statements

This press release may contain forward-looking statements that involve substantial risks and uncertainties for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. All statements contained in this press release other than statements of historical fact, are forward-looking statements. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "plan," "expect," "predict," "potential," "opportunity," "goals," or "should," and similar expressions are intended to identify forward-looking statements. Such statements are based on management's current expectations and involve risks and uncertainties. Actual results and performance could differ materially from those projected in the forward-looking statements as a result of many factors. Biodesix has based these forward-looking statements largely on its current expectations and projections about future events and trends. These forward-looking statements are subject to a number of risks, uncertainties, and assumptions. Forward-looking statements may include information concerning the impact of the COVID-19 pandemic on Biodesix and its operations, it is possible or assumed future results of operations, including descriptions of its revenues, profitability, outlook, and overall business strategy. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. The Company's ability to continue as a going concern could cause actual results to differ materially from those contemplated in this press release and additionally, other factors that could cause actual results to differ materially from those contemplated in this press release can be found in the Risk Factors section of Biodesix's most recent annual report on Form 10-K, filed March 14, 2022 or subsequent quarterly reports on Form 10-Q during 2022, if applicable. Biodesix undertakes no obligation to revise or publicly release the results of any revision to such forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. All forward-looking statements are qualified in their entirety by this cautionary statement.
