Denver Post Names Biodesix a Winner of Top Workplaces 2025 Award

May 14, 2025

LOUISVILLE, Colo., May 14, 2025 (GLOBE NEWSWIRE) -- Biodesix, Inc. (Nasdaq: BDSX), a leading diagnostic solutions company, is pleased to announce that it is a **Colorado Top Workplaces 2025 Winner**. The Top Workplaces program has an 18-year history of surveying and celebrating *people-first* organizations nationally and across 60 regional markets. This recognition is based solely on employee feedback gathered through a third-party survey, administered by employee engagement technology partner, Energage.

The confidential survey uniquely measures the employee experience and its component themes, including employees *feeling respected & supported, enabled to grow, and empowered to execute*, to name just a few key attributes of a top-performing workplace.

“I want to first recognize each of the Biodesix team members for their direct contributions in cultivating our high performing and fulfilling workplace culture,” said Scott Hutton, CEO & President of Biodesix, Inc. “As one of only 150 companies to earn this recognition, it reinforces that Biodesix is an employer of choice and reflects our team’s enthusiasm to continue building our unique culture. Thank you again to the team for their commitment to excellence in serving our healthcare customers, their patients, and our industry partners as we continue driving towards the Biodesix mission and vision.”

This is the company’s second consecutive year being recognized as a ***great place to work*** through comprehensive anonymous employee surveys on critical themes measuring employee engagement and workplace culture. Last year, Biodesix received the prestigious Inc. Magazine 2024 Best Workplaces award.

“In today's market, leaders must ensure they’re cultivating a workplace where employees have a voice, and they are heard. Earning a **Top Workplaces award** is an exclusive badge of honor for companies, especially because it comes authentically from their employees,” said Eric Rubino, Energage CEO. “That's something to be very proud of.”
